BANK OF VIRGINIA BUILDING —— NEWPORT NEWS, VIRGINIA

High School Graduates!

You have learned that the American system of Free Enterprise is by far the best economic system in the world ~ the system that has insured the fullest freedom to all, produced the highest standard of living and brought to mankind more comforts and conviences than any other system anywhere on the globe.

Americans will not trade its system of Free Enterprise for any of the new or old "isms" nor will it permit its Government in any way to infringe upon it by political maneuvers that would substitute Government owership and operation for presentday sound business management.

Its now up to you High School graduates and all of us to protect what we have and maintain our freedom!

The Number One Morning Habit —

The thud of the paper on your front porch, tossed there by your Daily Press Carrier Boy, starts you reaching for the news of your community-around the world. Ever think of it that way? It's the great morning habit, this eager reaching for the truth, this wanting to know what's going on — everywhere and without the slightest delay at all.

It's a good habit, too, for here is the foundation of the freedoms we cherish so deeply. In knowing what's going on lies our capacity for the making of choices.

It is at this point that your Daily Press becomes so important to your way of life. In its pages are presented the truth of what's going on in your community — the world — the facts from which we, as individuals, determined for ourselves how we will vote, whom we will patronize, what we will think, and what we will do.
